## Beltain Environmental Statement

We are dedicated to ensuring that Beltain is celebrated with the natural world in our best interest. Preparations for this event have been carefully considered with the safety and preservation of the environment in mind by:

- Informing caterers attending Beltain that plastic is not to be sold on site and providing them with eco-friendly alternatives, for example biodegradable products.
- Building the wicker man from sustainable local hazel branches
- Providing free biodegradable cups at our beer stand
- Acknowledging energy and fuel consumption by encouraging festival goers and contractors to car share, cycle or walk
- Using local entertainers and caterers to reduce carbon emissions
- Practicing safe and organised environmental waste management
- Encouraging volunteers to help pick up rubbish and recyclable materials
- Actively measuring and monitoring environmental impacts
- Sustainably managing the use of all resources, energy, water and procurement
- Raising awareness and encouraging participation of employees in environmental matters
- Continue to improve and monitor our environmental performance
